Internship

Web Developer Training

Softpro India Pvt. Ltd.,Lucknow UP

Completed a summer internship at Softpro India as a full-stack developer, where I developed an e-learning portal using Python and Django. The project focused on providing online training support to students, featuring interactive modules and a user-friendly interface to enhance learning experiences.

Certificates

Summer Training in Full Stack using Python with Django
IR4.0 Foundation Course Under Techsaksham
Online Course on Big Data at Polprep
Online summer training in Python with Django

Major-Projects

E-Learning Portal

- Aim : Developed an e-learning portal aimed at enhancing student engagement and accessibility in online education by integrating interactive learning modules and multimedia content. The platform provides discussion forum,study material daily basis report and supports multiple formats, making learning more effective and adaptable to individual needs.

CalmQuest:Mental Healthcare

- Aim : Developed a CalmQuest mental healthcare website aimed at providing accessible support and resources for individuals seeking mental health assistance. The platform includes features such as confidential self-assessment tools, expert articles, and a directory of mental health professionals. It is designed to promote mental wellness by offering users a safe and supportive environment for managing their mental health.
